## ADMIN RECORD

Gentlemen:

The informal OU8 Dispute resolution signed July 7, 1992, required DOE to propose and all parties to agree to a procedure to improve reporting on acquisition status and problems in support of the IAG. This correspondence confirms the verbal discussion and agreements from the July 7, 1992 IAG Coordinators meeting, on this subject.

- 1) DOE will include acquisition status as a specific subsection under paragraph 2.2 of the Environmental Restoration Program Monthly Report. This will begin with the report for June 1992, which will be dated July 20, 1992, and continue through the life of the IAG.
- 2) DOE will provide three updates on the status of corrective measures to address acquisition process improvements mandated by the dispute resolution. These reports will be provided to CDH and EPA at 30, 60, and 90 days following the July 7, 1992 dispute resolution, which translates to August 6, September 4, and October 5, 1992. It is expected that major acquisition process improvements will have been completed at the end of 90 days.

If the actions above do not reflect your understanding of the agreements from the July 7, 1992 meeting, please contact me at (303) 966-7846.

Sincerely,

Frazer R. Lockhart  
Director  
Environmental Restoration Division
